Making a private page

By default, all pages made on the Rockets Wiki are public. If you want to make a page private follow these steps:

The screenshot shows the Rockets Wiki interface. The top navigation bar includes the Rockets Wiki logo, a search bar, and links to Shelves, Books, and a user profile (Cooper). The breadcrumb trail indicates the current path: Shelves > Guides > Wiki Usage > Making a private page. The main content area displays the title 'Making a private page'. The right sidebar contains a 'Details' section with revision information and an 'Actions' menu. The 'Actions' menu includes options like Edit, Copy, Move, Revisions, Permissions, Delete, Favourite, and Export. A red arrow points to the 'Permissions' option in the Actions menu.
